## TECHNICAL SKILLS

### • Front-End:

- HTML5, CSS3, JavaScript
- Responsive Design: Bootstrap, Tailwind CSS, Vuetify
- JavaScript Frameworks: Vue.js, Vue Router, Vue
- Moodle, PHP

### • Back-End:

- Node.js, Express.js
- Nest.js

### • Databases:

- Basic SQL (CRUD operations, Joins, Queries)
- MySQL, PostgreSQL (basic knowledge)

### • Version Control:

- Git, GitHub

### • Others:

- RESTful APIs
- npm, Webpack, Vite
- Postman/Swagger for API testing

## REFERENCE

**Khemer Jay Deguinion**

Webee Labs

Phone: +63-9665631269

## PROFILE

Passionate and skilled Web Developer with over 2 years of experience specializing in front-end and back-end development. Expertise in HTML, CSS, JavaScript frameworks, Node.js, Vue.js, Nest.js, and SQL databases. Looking to contribute technical skills and collaborative energy to create intuitive, efficient web solutions in a dynamic development team.

## WORK EXPERIENCE

**Davao del Norte State College**  
Web Developer

2022 - PRESENT

- Developed and maintained responsive websites using HTML, CSS, JavaScript, and front-end frameworks like Vue.js, Tailwind CSS, and Vuetify.
- Implemented API integration, form validation, and UI enhancements using Vue.js and Node.js.
- Managed back-end development with Nest.js for creating APIs and handling business logic.
- Optimized SQL queries for data retrieval and CRUD operations, ensuring efficient database interactions.
- Collaborated with designers and backend developers to ensure consistent performance and smooth user experiences.
- Utilized Git for version control and followed Agile development methodologies.
- Assisted in the development of dynamic websites and single-page applications (SPAs) using HTML, CSS, JavaScript, Bootstrap, and Vue.js.
- Integrated third-party APIs and conducted API testing using Swagger.
- Built and customized reusable Vue.js components for various client projects.
- Developed and maintained back-end functionality using Node.js and Nest.js.
- Used basic SQL commands to manage and manipulate data across client databases.
- Participated in code reviews and contributed to improving code quality and project workflows

## EDUCATION

**Bachelor of Science and Information Technology**  
Davao del Norte State College

2018 - 2022

## PROJECTS

### Faculty Performance Evaluation (FPS) (Full-Stack)

- Developed a full-stack system using Vue.js for the front end, Nest.js for the back end, and MySQL for the database.
- Generate the faculty's grade based on student ratings.

### Human Resource Management Information System (HRMIS) (Full-Stack)

- By utilizing API keys from two different frameworks, Node.js and WordPress, the system simplifies almost all tasks of the Human Resource Management Department, especially in recruitment.

### Learning Management System(LMS) (Front-End)

- Created a learning management using moodle framework.
- The system was used during the pandemic, allowing faculty and students to interact with each other and monitor student activities.
