

Testimonials from The Sapnay Program Beneficiaries:

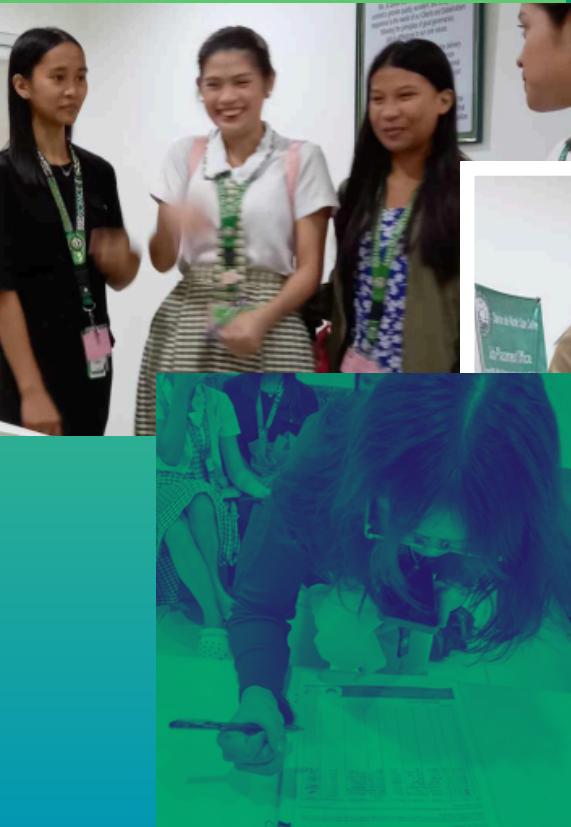

My experience with the community pantry has been very positive. It has had a great impact on me, especially since I often don't eat when I go to school. The pantry has been very helpful, allowing me to focus better on my exams.

A life saver for students, especially those who cannot afford to eat breakfast. It helped me and gave me energy for my exam.

I'm happy because I can eat here. I usually skip breakfast. My prayer is that you will be given more strength to continue helping students who really need it, like me.

The Sapnay Program helped me massively. I received multiple benefits, such as financial assistance to buy maintenance medicine for my mental disorder, rice, and basic needs for my on-the-job training. I am grateful to DNSC's Sapnay for the assistance; I'm already a graduating student.

3. Project BUHI (Basic Utilities and Help Initiative), a compassion arm for students who cannot afford basic subsistence, such as food, transportation, and sanitary needs
